OPERATION: Track The RailroaD

End Human Trafficking

Our Mission: Create a web application to educate law enforcement agents, social workers, and parents about human trafficking, identify high-risk locations surrounding Atlanta, and END human trafficking

OPERATION: Hack The RailroaD

End Human Trafficking

Who We Are

- "We only have two choices to do NOTHING or to do SOMETHING," and so we chose to bring awareness to Human Trafficking and bring the change we could
- Our organization, Operation: Hack the Railroad has been working towards collecting statistics regarding human trafficking in Atlan GA to reduce these numbers
- Our goal is to END Human Trafficking

OPERATION: Track The RailroaD

End Human Trafficking

Scan and See the Website

OPERATION:

Track the RailroaD

OPERATION: Hack The RailroaD

End Human Trafficking

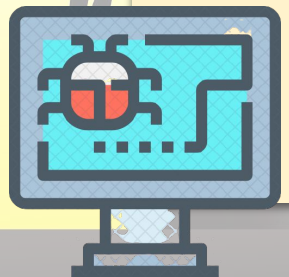
Our Web Application

OPERATION: Track The RailroaD

End Human Trafficking

Challenges

- Lack of solid data from CJCC or DOJ for human trafficking
- We lost all the source code day 2
- Learned python, Jupyter, Cloudy Cluster, and Node JS in 2 days!
- Difficult integration of FBI Crime Data API into our web app.



OPERATION: ack The RailroaD

End Human Trafficking

Accomplishments: Learning & Impact

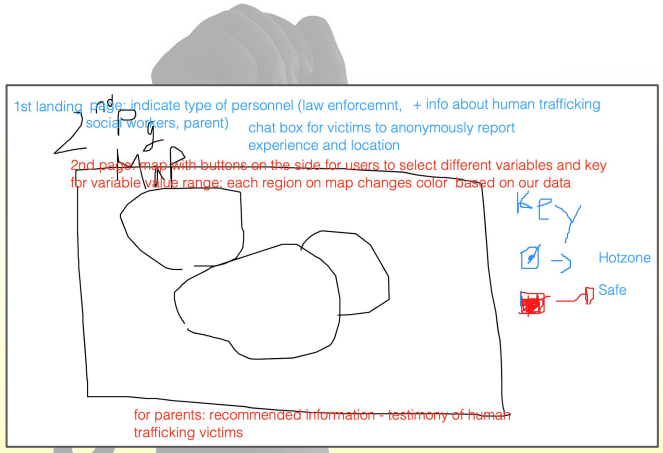
- Learning:
  - Jupyter Notebook, Node JS, Python3, Cloudy Cluster platform, and Google Colab to analyze crime data
  - Virtual team work, collaboration and presentation skills

- Our Impact:
  - Visualize crimes in Atlanta and its vicinity
  - Collection of statistics and resources to educate users in the community

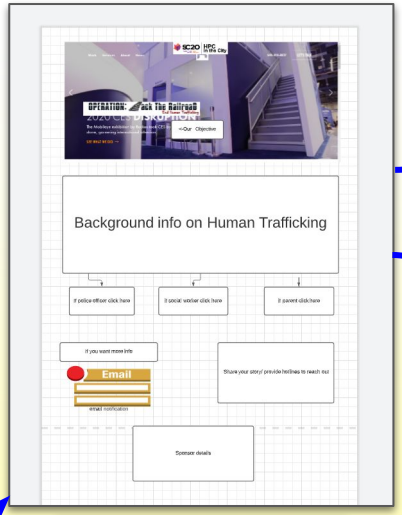
OPERATION: Hack The RailroaD

End Human Trafficking

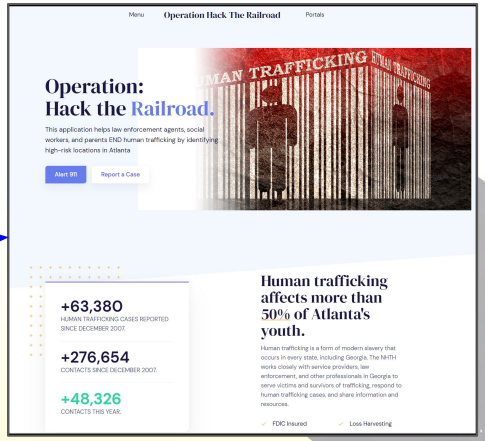
We came a long way with our UI Design

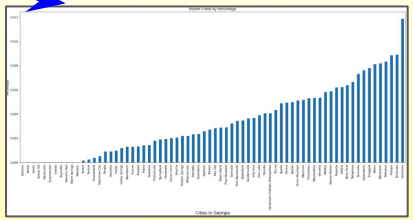


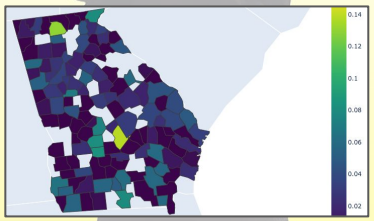
Rough design on Zoom Whiteboard



Polished design on LucidChart







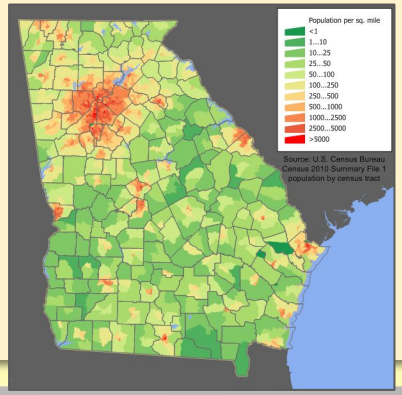
Webpage, crime graphs, crime heat maps

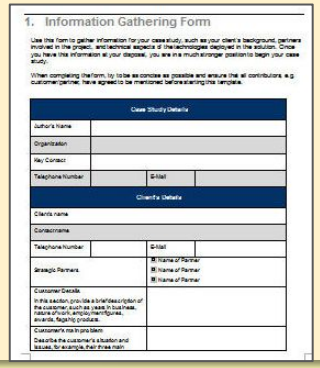
OPERATION: Track The RailroaD

End Human Trafficking

Future Plans

- Use SQL database to collect survey information
- Upload heatmap and graphs on webpage
- Interactive features for heat map and bar graphs





1. Information Gathering Form

Use this form to gather information for your case study, such as your client's background, partners involved in the project, and technical aspects of the technologies deployed in the solution. Once you have this information at your disposal, you are in a much stronger position to begin your case study.

When completing the form, try to be as concise as possible and ensure that all contributors, e.g. customer/partner, have agreed to be mentioned before starting this template.

Case Study Details
